

CLEANING INSTRUCTIONS

Please adhere to these simple cleaning instructions to avoid damage to the surface finish.

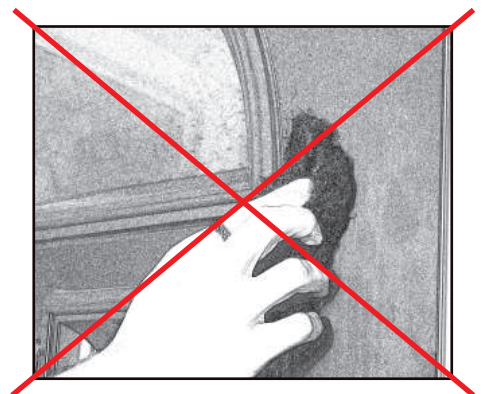

1. Cleaning should be carried out to remove debris and grime from your door.

2. We recommend the use of a mild detergent solution and soft cloths.

3. We do not recommend the use of abrasive cleaning pads or scourers.

Do not paint or varnish over the metal fitting components.

It is important to observe any recommendations from the fabricator to avoid damaging the surface finish, but generally their advice is in line with that given above.
