

BullRing

Anti break-in washer

- **Unattackable**
- **Indestructible**
- **Economical**

We have taken care of it, with the most economical solution.

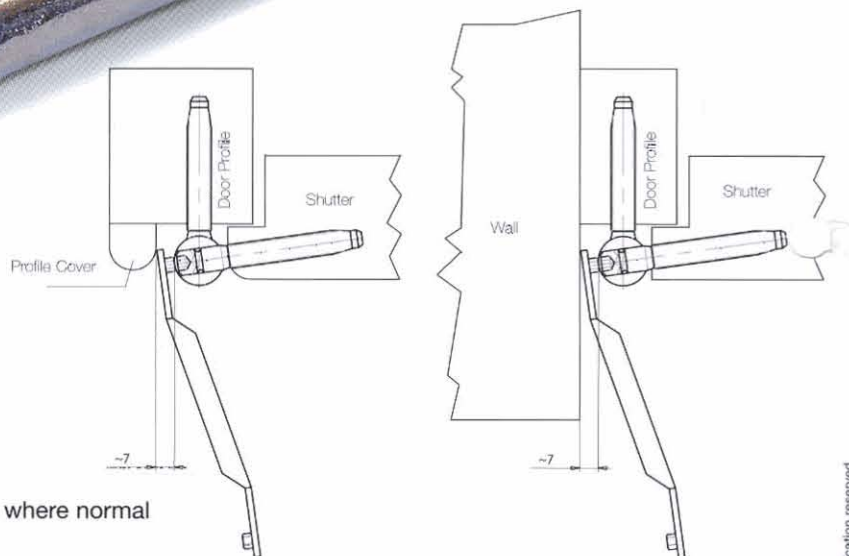

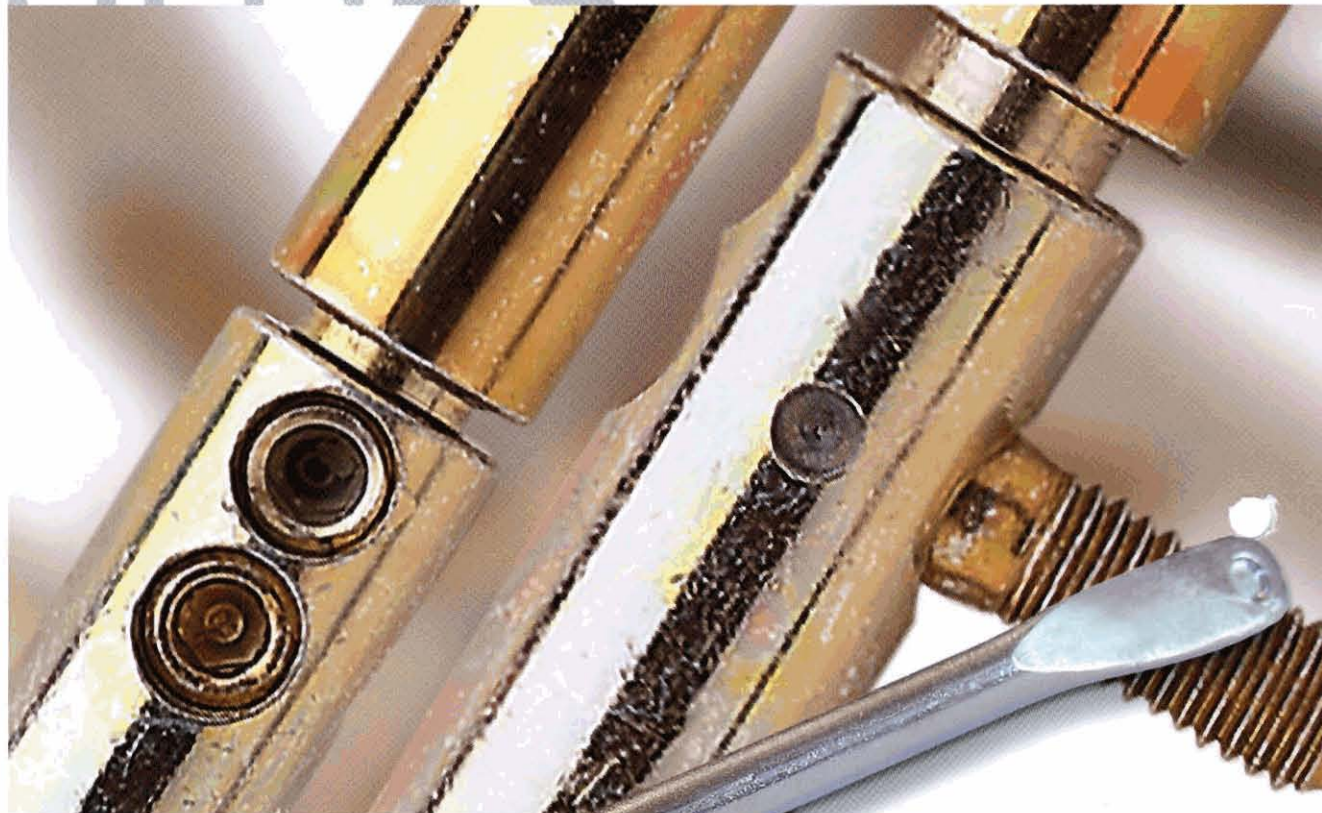

The objective of this protective device is to protect the hinge pin from any attempts to cut it. Made from a highly resistant material, it is a real protective shield for the pin.

TrimK

Adjustment key

- **Easy**

Resolutive

It is finally possible to adjust **Exacta** where normal keys can not due to lack of space.

It is easy to intervene; 7 mm of space between the body of the hinge and the obstacle (door profile, wall, etc.) is sufficient.

Modification reserved
